

BEACON & SOUNDER CAGES

Helps Protect Operation of Beacons and Sounders From Theft and Vandalism

Here is an excellent way to protect your beacons and sounders against both vandalism and accidental damage. The newest members of the STI Wire Guard Team, these Stoppers were created in response to multiple requests from STI customers. They are easy to install with all screws and anchors provided.

Backed By a Lifetime Guarantee

Constructed of tough steel wire that is coated with corrosion resistant polyester. It is not surprising STI backs them with a lifetime guarantee against breakage in normal use. These Stoppers are highly recommended for areas where abuse is severe or it is imperative sounders and beacons continue to operate.

STI-9615

STI-9664
